BELGIUM

GATES Power Transmission Europe bvba, hereby certifies that
the belts Gates Hi-Power® , Super HC®, Super HC® MN, Quad-Power® II, VulcoPower™, VulcoPlus™
are made with special compound resistant to oil and heat, ozone, sunlight, weather and ageing.
Furthermore, the belts are designed to meet ISO 1813 - 1998 standard regarding static conductivity.
All sizes meet the Gates UNISSET length tolerances, that allow the belts to be installed without additional matching.
All mentioned Gates standard V-belts, comply with
the respective standards (depending on section) : BS3790/ISO4184/DIN7753 and RMA IP
as for marking, section, measuring, CD variation, applicable pulleys and transmittable load
